

Request for Expression of Interest

Seeking Experienced Contractors to perform Bridge Concrete Deck Replacement and Concrete Substructure Rehabilitation work

For the

Niagara Falls Bridge Commission

December 30th, 2011

Overview

The Niagara Falls Bridge Commission seeks qualified contractors to perform the following work:

- Concrete deck removal and replacement on the Whirlpool Rapids Bridge US and Canadian approach truss spans. The contractor must be able to perform work on the Canadian border and the US Border.
- Concrete substructure rehabilitation of the Rainbow Bridge skewbacks located in the US Niagara River Gorge.
- Miscellaneous Joint Rehabilitation.

Interested firms shall submit the following for prequalification:

- A Company resume of the work history in the last 5 years.
- Show they have previous experience on the above mentioned work with past projects with attached references with contact names and phone numbers.
- Submit to the Commission that the Contractor has a sound company financial position. (Financial statements may be requested).
- Must have experience personnel who has performed similar work with Knowledge of NYS DOT specifications.
- Illustrate that they have no serious OSHA or NYS DEC violations.
- Must be registered to work in New York State, USA and in the Province of Ontario, Canada

Expressions of interest shall be received no later than 3:00 pm on January 27th, 2012. Please submit to the attention of Robert R. Koert, Construction Manager, Niagara Falls Bridge Commission, 5365 Military Road, Lewiston, NY 14092.
